Brother Printer Stuck on [

Preparing]: Print Initialization

Repair Guide

If your Brother printer is stuck on “Preparing,” restart the device and [CaLL~ 📞 < +1→(888)→864→6141 ›] clear pending print jobs. Reinstall Brother drivers to fix initialization issues. Ensure the printer’s WiFi or 📞 Call +1-888-864-6141 USB connection is stable and [CaLL~ 📞 < +1→(888)→864→6141 ›] the firmware is updated. Reset the printer to factory defaults to remove corrupted startup tasks. Run a Print Head Cleaning cycle if internal calibration is stuck. For complete print-initialization repair help, call 1 (888) 864-6141.
