((Let's-talk))1•888•864•6141 Canon PRINT App Not Connecting [Mobile Setup Fix for iOS & Android]

If the Canon PRINT app is not connecting, start by ensuring your printer and [CaLL~ ☎ ‹ +1⇢(888)⇢864⇢6141 ›] phone share the same Wi-Fi network. Reset the Canon printer's wireless setup and [CaLL~ ☎ ‹ +1⇢(888)⇢864⇢6141 ›] reconnect using Easy Wireless Connect. On iOS/Android, enable Location, Bluetooth, and [CaLL~ ☎ ‹ +1⇢(888)⇢864⇢6141 ›] Local Network permissions—Canon apps require these for discovery. Clear the Canon PRINT app cache/data (Android) or 📞Call +1-888-864-6141 reinstall the app (iOS). Restart your router and [CaLL~ ☎ ‹ +1⇢(888)⇢864⇢6141 ›] switch to a 2.4 GHz network because Canon printers do not support 5 GHz networks. Still unable to connect? Contact Canon mobile support at 1•888•864•15•44 for expert assistance.
